

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Laura & Rudolph Schoewe
DOCKET NO.: 03-27838.001-R-1
PARCEL NO.: 12-23-229-031

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Laura & Rudolph Schoewe, the appellants, by attorney Donald T. Rubin with the law firm of Rubin & Norris in Chicago and the Cook County Board of Review.

The subject property consists of a 4,688 square foot parcel of land containing a 40-year old, two-story, masonry, mixed use building with a storefront on the first level and apartments on the second. The improvement contains 4,232 square feet of living area, three baths, and a partial, unfinished basement. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions of four properties suggested as comparable to the subject. Black and white photographs of the subject property and the suggested comparables and a brief from the appellant's attorney were also submitted. The data in its entirety reflects that the properties are located within the subject's neighborhood and are improved with a two-story, masonry, mixed-use or multi-family building with between two and

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,100
IMPR.: \$ 41,499
TOTAL: \$ 46,599

Subject only to the State multiplier as applicable.

six apartment units. In addition, two properties contain one or two commercial units, two properties contain a full or partial, unfinished basement; and three properties contain air conditioning. The properties range: in age from 43 to 49 years; in size from 5,068 to 6,764 square feet of living area; and in improvement assessments from \$5.03 to \$8.40 per square foot of living area. Based upon this analysis, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$41,499, or \$9.81 per square feet of living area. The board also submitted copies of the property characteristic printouts for the subject as well as three suggested comparables located within three blocks of the subject. The board's properties contain a two-story, masonry, multi-family dwelling with three apartment units, three or five baths and a full, finished basement. The improvements range: in age from 41 to 46 years; in size from 3,270 to 4,758 square feet of living area and in improvement assessments from \$10.40 to \$11.57 per square foot of living area. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. *Property Tax Appeal Board Rule 1910.65(b)*. Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has met this burden and that a reduction is warranted.

The parties presented assessment data on a total of seven equity comparables. The PTAB finds the appellant's comparables #2 and #4 and the board of review's comparable #1 are the most similar to the subject. These three comparables contain a two-story, masonry, mixed-use or multi-family dwelling located within the subject's neighborhood. The improvements range: in age from 46

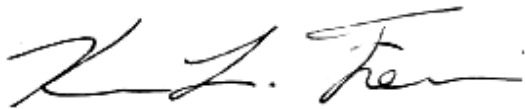

to 49 years; in size from 4,758 to 5,286 square feet of living area; and in improvement assessments from \$7.36 to \$10.40 per square foot of living area. In comparison, the subject's improvement assessment of \$9.81 per square foot of living area falls within the range established by these comparables. The PTAB accorded less weight to the board of review's remaining comparables due to a disparity in size.

As a result of this analysis, the PTAB further finds that the appellant has not adequately demonstrated that the subject's improvement was inequitably assessed by clear and convincing evidence and that a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
